Background and Experience
<p>Please briefly present the organisation/group (e.g. its type, scope of work, areas of activity and if applicable, approximate number of paid/unpaid staff, learners and members of the group).</p> <p>"A VIZYON" was established with the aim of national and international level and technological developments in education and social life , innovative approaches to research, developing educational software, providing distance education and establishing distance education systems, acquiring and supporting educational activities, vocational trainings, and the development of social and rural areas, realize adult and vocational training.</p> <p>We are developing research and practice projects on e-learning systems in both international and national levels. For these projects, there is a Software Development Project Unit which had set up within our organization.</p> <p>Our team had conducted many projects in the years of 2015-2020 as part of distance learning. It had a significant experience by virtue of the conducted projects. As "A VIZYON", we are working for watching the developments in all areas of education. "A VIZYON" also provides learning opportunities through learning platforms for schools and for the general public.</p> <p>We are developing research and practice projects in both international and national levels. For these projects, there is a Project Unit which had set up within our organization. Thanks to a qualified project management team of experts with long experience in the educational and vocational field, "A VIZYON" promotes different European projects, covering various duties as a trainer, hosting and sending institution. Our project management team had conducted many projects in the years of 2009-2014 as part of Lifelong Learning Program and Erasmus+. It had a significant experience by virtue of the conducted projects. As "A VIZYON", we are working for watching the developments in all areas of education.</p> <p>Our activities are backed up by the active participation of an international network of institutions, working in collaboration with many European Organizations, Schools, Universities and Enterprises.</p>

International Technology and Education Academy

Among our duties, there are increasing the quality of education and teacher and students trainings. Besides, we are developing research and practice projects in both international and national levels.

Our administration is an institution which has experienced employees and infrastructure about project conducting.

As "A VIZYON", some duties within the area of education are as such:

- To give trainings and courses to promote personal skills,
- To prepare digital materials about education,
- To give e-learning trainings according to student needs at national and international level,
- To prepare and practice projects about education,
- To watch and report the project management in research and practicing projects

Mobile applications, educational software and artificial intelligence applications have gained speed within the institution. The virtual college application developed in this context serves 35.000 students in Germany and Turkey with 650 teachers. Among our duties, there are increasing the quality of education and teacher trainings. Besides, we are developing research and practice projects in both international and national levels. For these projects, there is a project department unit which had set up within our administration.

What are the activities and experience of the organisation in the areas relevant for this project? What are the skills and/or expertise of key persons involved in this project?

"A VIZYON" provides internships and learning opportunities through special events, seminars, workshops and conferences for schools and for the general public. In the framework of Erasmus+ our project department concentrates on monitoring and organizing internship placements, accommodation and board, language and training courses, seminars and cultural activities for the participants within mobility projects and for the teachers within study visits.

With the proposed project we established a project execution project team. Our team of project execution, includes 1 manager, 1 project coordinator contact person), 1 software engineer and consists of 1 assistant and 2 teachers. All our staffs are very experienced in their fields and also implementation of the project. We are experienced in European Union projects and training courses. Our important role in the project is to contribute give necessary trainings.

Considering our expertise, in this project we can:

- Improve the quality of teaching and learning materials
- Improve the skills of trainers. We are a training academy for trainers under the Programme Erasmus+ and organize updating courses for trainers also introducing new methodologies
- Intensify the use of new technologies in the learning process. We are a training academy of education also we are starting with e-learning platform.

Our International Department staff has been chosen regarding their expertise in organizational matters and their advanced skills in languages and communication. Persons involved in the International Department:

Asım Ekim, Director of the "A VIZYON", organizes trainings for schools. He guides and coordinates the activities regarding the school's academic events. It organizes software courses and STEM training for teachers and students. He is an experience of 60 years.

Medeni Coşkun is the contact person of the project. He is a mathematician and software developer. He has conducted more than 20 Erasmus+ projects. PICTES (Project on Promoting Integration of Syrian Children into the Turkish Education System) project between the European Delegation and Republic of Turkey Ministry of Education was signed in 2016. He worked as a Education Planning Unit Coordinator for 3 years in this project. Also, he worked as a project coordinator for many years in the Project R&D Units of the National Education Directorates. He planned and organized the education of 390 thousand refugee children. He planned and carried out the trainings within the scope of the project for 15 thousand teachers. He also has experience in transnational meetings as part of KA2 projects. He speaks English well.

Mustafa Kayalı is a mechanical engineer and software developer. He is someone who has given trainings and actively participated in many Erasmus + projects. He provides training for teachers and schools. He teaches artificial intelligence, Visual Studio, graphic design, e-learning, STEM and web design. He speaks English.

Kübra Şahin is the Economist. She will be assistant of the project. She organizes youth projects and trainings. She also has experience in Job Shadowing projects. She speaks English.

Has the partner organisation participated in a European Union granted project in the 3 years preceding this application?
